

Premium Burns & Scar Management

With Jobskin Ltd, Long Eaton, Nottingham

Jobskin®
designed around you

www.jobskin.co.uk

29th June 2022 9.00am – 4.30pm

Jobskin® would like to invite you to join us on our training workshop on assessment and measuring for our Premium range of pressure garments for burns & scar management. The workshop is delivered by one of our experienced therapy specialists; Marianne Dunne.

Courses are free for registered clinicians practicing in the field of burns and scar management.

Lunch and refreshments are provided.

Measuring Workshop

This will be an inspiring full day training workshop focusing on the Premium range of pressure garments and will enable delegates to increase their working knowledge in the management of problem scarring using pressure therapy. A basic knowledge of scar management and pressure therapy is required.

Delegates will have the opportunity to practice measuring techniques with supervision from our therapy specialist. Each delegate will be provided with a comprehensive training manual and the necessary paperwork and equipment to support the learning objectives.

Learning Objectives

- The role of pressure therapy as a treatment modality in scar management.
- How to assess if a patient is a good candidate for pressure therapy.
- Evidence and clinical reasoning behind using pressure therapy.
- Gain assessment, measuring and treatment skills that can be used within your clinical setting.
- Confidence in measuring techniques for Premium garments.
- How to customize a garment using the modifications available to the individual needs of the patient.
- Knowledge of silicone gel options in combination with pressure garments.

Marianne Dunne – Therapy Specialist

Therapy Specialist with Jobskin® for over 36 years, based in the Irish office, covering Scar Management and Lymphoedema. Responsibilities include the delivery of training workshops globally and Lymphoedema Clinics in Ireland.
