MTM Pressure Garment

Pressure Garments

Made to Measure order forms

Order form: Foot

Guidelines for Foot order form

Recording measurements

- **Please record your measurements using the outline drawing, measurement boxes or both**
- All measurements are recorded in metric. For example 12.4cm

Sock

- Zippers can be inserted if the garment is difficult to apply
- Please consider the finished length of your garment in order to minimise the garment from slipping and to ensure comfort for your patient
- Sock can be closed with powernet fabric or soft cotton
- Open toe sock: it is advisable to finish at the metatarsal heads
- For scarring to the toes or into the webs, a foot glove should be considered
- Please contact our therapy specialist or the manufacturing unit for assistance with measuring

Silicone textile inserts or pad inserts

- Please use the body outline tracing pad provided to indicate any special requirements or to mark the area where you would like a silicone textile insert or a pad inserted
- Please mark clearly using a black pen
- Alternatively these can also be marked at the 1st fitting for accuracy if desired
